All-

I'm not sure if you want to send folks to the next EPA/dredge in protest, this time in Garden Valley on the SF Payette. I talked with Chad Hood of the FS and he has sent it up his chain of command. He says it's likely that they'll be handsoff during this protest. However, he says things might change if there are interactions/conflicts between rafters and dredgers. This is a very popular rafting river. Note that AMRA/Poe has posted that they plan on dredging the SF Clearwater after this protest (July 15 on).

Hi Kelly,

The EPA is aware that a second protest has been proposed for the July 4 time frame again. An earlier version of this poster did not include details about the location (or sponsors). Thank you for sharing.

Classification: UNCLASSIFIED
Caveats: NONE

I saw this post and wondered if folks were aware of this planned activity on the SF Payette in July?

Kelly
